The authors and the journal apologise for an error in this article published in the European Journal of Endocrinology 2008 Vol 158 pp 35–46. In the second paragraph under the section ‘Statistical analysis’, on page 37, the formula for calculating the AUC should be as follows:

\[
1.5 \times \left[ 0.5 \times \text{concentration}_{t=0.5 \text{h}} + \text{concentration}_{t=1.5 \text{h}} + \text{concentration}_{t=3.0 \text{h}} + \text{concentration}_{t=4.5 \text{h}} + 0.5 \times \text{concentration}_{t=6.0 \text{h}} \right]
\]

and not as published. The full sentence should therefore read:

Total area under the curve (AUC) during 0–6 h was estimated as the postprandial summary variable and calculated by the trapezoidal rule in units of concentration \( \times \) hours, i.e. \( 1.5 \times (0.5 \times \text{concentration}_{t=0.5 \text{h}} + \text{concentration}_{t=1.5 \text{h}} + \text{concentration}_{t=3.0 \text{h}} + \text{concentration}_{t=4.5 \text{h}} + 0.5 \times \text{concentration}_{t=6.0 \text{h}}) \).
