ACTA ENDOCRINOLOGICA

LIST OF SUPPLEMENTS ISSUED

2. Thorborg, J. V.: On the influence of oestrogenic hormones on the male accessory genital system, with special reference to the prostate and the aetiology of the benign senile «hypertrophy» of the human prostate. (Out of print). Dan. cr. 15. -

3. Gurm, O.: A study on bovine nymphomania, with special reference to etiology and pathogenesis. Dan. cr. 15. -

5. Horstmann, P.: Dwarfism. A clinical investigation, with special reference to the significance of endocrine factors. Dan. cr. 15. -

6. Engfeldt, B.: Studies on parathyroidal function in relation to hormonal influences and dietetic conditions. Dan. cr. 12. -

7. Johansson, H.: The relation of the endometrial stroma to the changes occurring under hormonal influence in the endometrial epithelium. Dan. cr. 12. -

9. Tala, Pekka: Histoquantitative studies on the effect of thyrotropin and thyroxin on the morphology of the thyroid gland, with special reference to standardization of the thyrotropic hormone. An experimental study with guinea pigs. (Out of print). Dan. cr. 12. -

10. Hess, Leo: Bilateral symmetrical diseases of the adrenals. Dan. cr. 4. -

11. Timiras, Paola: Phagocytosis and the hypophysis-adrenocortical system. Dan. cr. 15. -

12. Diczfalusy, Égon: Chorionic gonadotrophin and oestrogens in the human placenta. Dan. cr. 26.75-

13. Beugstsson, Lars Philip: Studies on the metabolism of acid soluble phosphate in the vagina of the rabbit after a single injection of oestrogenic hormone. Dan. cr. 12. -

15. Hedberg, Erik: The chemical composition of the human ovarian oocyte. Dan. cr. 15. -

16. Latvalahti, Jussi: Experimental studies on the influence of certain hormones on the development of amyloidosis. Dan. cr. 12. -

18. Bergquist, Nils: The gonadal function in male diabetics. Dan. cr. 6. -

22. Kullander, Stig: Studies in castrated female rats with ovarian tissue transplantation to the spleen. Dan. cr. 8. -

23. Wahlen, Peter: The effect of thyrotropic hormone on thyroid function. A comparative study on chicks with radioactive indicators. Dan. cr. 15. -

25. Ikkos, Deniz: Pathophysiological studies in acromegaly. Dan. cr. 12. -

26. Skjerveen, Odd: Endometrial biopsy studies in reproductively normal cattle. Clinical, histochemical and histological observations during the estrous cycle. Dan. cr. 20. -

27. Kullander, Stig: Studies in spayed rats with ovarian tissue autotransplanted to the spleen. III. Development from the age of 6 months to 1 year in animals operated on at 3 weeks and the effect of the administration of estrogens and of hypophysectomy. Dan. cr. 8. -

28. Papers on biological research presented at the fifth international planned parenthood conference held at Tokyo-Japan from October 24th to 29th, 1955. Dan. cr. 30. -

29. Verboom, Ewout: Quantitative Determination of Progesterone-3(a), 20(a)-dihol in the Urine. Dan. cr. 15. -

30. Tillinger, Karl-Gunnar: Testicular Morphology. A histo-pathological study with special reference to biopsy findings in hypogonadism with mainly endocrine disorders and in gynecomastia. Dan. cr. 40.50 -

31. Transactions of the Second Acta Endocrinologica Congress, held at Fysik Institut, Oslo, August 12th to 15th, 1956. Dan. cr. 30. -

32. Halme, A., Pekkarinen, A. and Timmen, M.: On the excretion of noradrenaline, adrenaline, 17-hydroxycoctosteroids and 17-ketosteroids during the postoperative stage. Dan. cr. 15. -

33. Ljunggren, Håkan: Studies on body composition, with special reference to the composition of obesity tissue and non-obesity tissue. Dan. cr. 15. -
